

FIBERFRAX

- Light weight
- Low thermal conductivity
- Thermal shock resistance
- Low heat storage
- High heat reflectance
- Excellent fire protection
- Excellent sound absorption
- Low heat storage

- Furnace & kiln linings
- Investment casing wraps
- Stress relieving blankets
- Gas turbine insulation
- Furnace door seals
- Expansion joint seals
- High temperature gaskets
- Patch furnace cracks
- Kiln car seals
- Grease duct insulation
- Trough covers

Fiberfrax Ceramic Fiber Insulation for high temperature applications

Available in many forms, we can help solve your high temperature application problems. Friendly customer service, knowledge of products & applications, and immediate availability is our commitment to you.

Blanket

S Durablanket 2300
S Durablanket 2600
Fibermax Blanket 3000
FyreWrap Duct Insulation

Liquids

QF150 & QF180
Rigidizer W
Top Coat
LDS Moldable
Pumpable LDS & GS

Paper

970 / 972H
880 / 882H
550 / 440
XPE / HSA

Fibers

Bulk & H Bulk
Chopped & Washed

Modules

Anchored Modules
Bonded Modules

Board

Duraboard 2300 LD & HD
Duraboard 2600 & 3000

Textiles

Cloth & Tape
Twisted Rope
Round & Square Braid
Yarn & Wicking

Biosoluble

Isofrax & Insulfrax
